

# MLTA ACT 2026 Term 2 Workshop

## Dr Gianfranco Conti - Using Extensive Processing Instruction

Dr Gianfranco Conti will explain the why and how to use EPI through a morning session which will initiate beginning EPI teachers and serve as a refresher for many - and an afternoon session focussing on structured production, effective grammar teaching, how to build fluency and how to use the Language Gym.

You can sign up for a full day, or alternatively for the morning or afternoon sessions. If you prefer to receive an invoice for you or your school, please email [mlta.act.inc@gmail.com](mailto:mlta.act.inc@gmail.com) with full information about the attendees.

Morning and Afternoon tea will be provided, but not lunch. There are many restaurants close to Telopea.

There will be time for questions and answers at the end of the sessions.
